

Use this one-page checklist before approving any numbered carbonless reorder proof.

Proof review checklist

- ☐ Customer name and form ID match the ledger.
- ☐ Form name, part count, size, ink color, and binding match the prior order.
- ☐ Prior ending number is visible in the range tracker.
- ☐ New starting number equals the prior ending number plus one.
- ☐ No duplicate, skipped, or overlapping number range has been approved.
- ☐ Numbering position, prefix, suffix, and padding match the prior proof.
- ☐ Pad count, sets per pad, carton count, and quantity match the quote request.
- ☐ Customer-facing proof approval is saved with the job record.
- ☐ Vendor quote includes the exact start and end number range.
- ☐ Reorder trigger and next review date are updated after approval.
